BSI Awards ISO 13485:2003 Quality Certification to Intrinsic Imaging

ISO 13485:2003 certification for medical imaging core lab services across all therapeutic areas.

Boston, MA

September 26, 2012 — Intrinsic Imaging has been awarded ISO 13485:2003 certification (FM 587032) by the British Standards Institution (BSI), based on the company's ability to provide medical imaging core lab services that meet customer and regulatory requirements.

In addition, the company obtained ISO 9001:2008 certification in November 2011 and implemented ISPE GAMP5 medical imaging core lab services in March 2012.

Intrinsic Imaging's ISO 9001:2008 and ISO 13485:2003 certifications are applicable to all therapeutic areas including, but not limited to, cardiovascular, central nervous system, GI & genitourinary, medical device, musculoskeletal, respiratory and oncology.

About Intrinsic Imaging, LLC

Intrinsic Imaging is an ISO certified medical imaging CRO and imaging core lab providing comprehensive services in support of Phase I-IV clinical trials and Class I, II, III medical device trials. Intrinsic Imaging is also a world leader in conducting Artificial Intelligence studies. With its team of more than 650 board-certified and fellowship-trained physicians, Intrinsic Imaging's team has sub-specialization in all therapeutic areas, including Cardiovascular, Central Nervous System,Gastroenterology, Musculoskeletal, Oncology and Ophthalmology. Certified by the British Standards Institution (BSI), Intrinsic Imaging is the only company in the world to hold five ISO certifications specifically for providing imaging core lab services on clinical trials.
