Intrinsic Imaging Obtains ISO 9001:2008 Quality Certification by World Leading Certification Body

BSI issues ISO 9001:2008 registration certificate FM 578733 covering all of Intrinsic Imaging's clinical image management and radiological review services.

Bolton, MA and San Antonio, TX

Bolton, MA and San Antonio, TX, November 16, 2011 — Intrinsic Imaging LLC announces today that it has obtained ISO 9001:2008 certification for the provision of quality clinical image management and radiological review services in support of pharmaceutical, biotechnology, medical device and clinical research organizations that are conducting clinical trials.

Intrinsic Imaging's registration certificate, FM 578733, was issued by British Standards Institution (BSI), one of the world's largest certification bodies. From its origins as the world's first national standards body, BSI is among the most respected and reputable quality management systems certification bodies in the world and is accredited by approximately 20 local and international bodies. BSI is the largest certifier for both the United Kingdom and North America.

Intrinsic Imaging's ISO 9001:2008 quality certification demonstrates that it has established, documented, implemented and currently maintains a compliant quality management system and that it continually monitors and improves its effectiveness in accordance with the requirements of the ISO 9001:2008 international standard.

Intrinsic Imaging's ISO 9001:2008 quality certification is applicable across the entire organization for all of its clinical image management and radiological review services and is applicable to all therapeutic areas including, but not limited to, Cardiovascular, Central Nervous System, GI & Genitourinary, Medical Device, Musculoskeletal and Oncology.

"I am very proud of Intrinsic Imaging's ISO 9001:2008 certification," said Todd A. Joron, BSc, MBA, President & COO at Intrinsic Imaging. "With our team of more than sixty board-certified diagnostic radiologists, our robust and scalable clinical imaging technologies and our ISO certified and registered quality management system, Intrinsic Imaging is ideally positioned to provide unprecedented imaging core lab services to pharmaceutical, biotechnology, medical device and clinical research organizations around the world."

About Intrinsic Imaging, LLC

Intrinsic Imaging is an ISO certified medical imaging CRO and imaging core lab providing comprehensive services in support of Phase I-IV clinical trials and Class I, II, III medical device trials. Intrinsic Imaging is also a world leader in conducting Artificial Intelligence studies.
