Intrinsic Imaging Sponsors Webinar: Medical Imaging — The Advantages of an ISO Certified Quality Management System

Todd Joron discusses the advantages of an ISO 9001, 13485 and 22301 certified quality management system for clinical and medical device imaging.

Bolton, MA / San Antonio, TX

Bolton, MA / San Antonio, TX — May 19, 2016 — Intrinsic Imaging, an FDA audited, ISO 9001, 13485 and 22301 certified medical imaging core lab specializing in providing services for Phase I-IV clinical trials, will be sponsoring a webinar on the virtues for study sponsors to rely on a Quality Management System that is backed by ISO certifications.

Join Todd Joron, President and COO at Intrinsic Imaging, for a discussion on the advantages of having a methodical process and an ISO 9001, ISO 13485 and ISO 22301 certified quality management system designed specifically for managing all aspects of imaging conducted during pharmaceutical and medical device clinical trials. Case studies are also presented and examined:

• ISO 9001 in support of Phase I, II and III clinical trials in support of new drug applications.

• ISO 13485 in support of Class I, II and III medical device clinical trials, 510(k) and PMA.

• ISO 22301 and ensuring business continuity of the entire medical imaging lifecycle in clinical trials.

About Intrinsic Imaging, LLC
