Intrinsic Imaging Awarded Its Tenth Clinical Trial for Computer Aided Detection (CAD) / Artificial Intelligence (AI) / Deep Learning (DL) Software

Tenth MRMC clinical trial evaluating CAD/AI/DL software in support of an FDA submission.

Bolton, MA / San Antonio, TX

Bolton, MA / San Antonio, TX — August 15, 2017 — Intrinsic Imaging, a full-service medical imaging core lab providing comprehensive services in support of Phase I-IV clinical trials and Class I, II, III medical device trials, announces today the award of another multiple-reader multiple-case (MRMC) study to assess the clinical performance of computer aided detection (CAD) / Artificial Intelligence (AI) / Deep Learning (DL) software.

This is Intrinsic Imaging's Tenth (10th) MRMC clinical trial award to evaluate CAD/AI/DL software in support of an FDA submission.

Intrinsic Imaging was selected due to its operational excellence and experience conducting large MRMC CAD/AI/DL trials; successful FDA inspection of an MRMC CAD/AI/DL trial with zero 483 observations; proven success with multiple FDA clearances of Class I-III CAD/AI/DL software; ISO 13485 certification specifically for providing services for medical device clinical trials; ability to quickly source 15–30 reviewers using its network of 200+ reviewers; and ability to effectively and efficiently manage 6000–20000 case reviews.

"Intrinsic Imaging is the world leader in conducting multi-reader multi-case CAD/AI/DL studies," said Todd A. Joron, BSc. MBA, President & COO, Intrinsic Imaging. "We provide the most efficient means to assess the clinical performance of CAD/AI/DL software in support of an FDA submission."

About Intrinsic Imaging, LLC

Intrinsic Imaging is an ISO certified medical imaging CRO and imaging core lab providing comprehensive services in support of Phase I-IV clinical trials and Class I, II, III medical device trials. Intrinsic Imaging is also a world leader in conducting Artificial Intelligence studies. With its team of more than 650 board-certified and fellowship-trained physicians, Intrinsic Imaging’s team has sub-specialization in all therapeutic areas, including Cardiovascular, Central Nervous System,Gastroenterology, Musculoskeletal, Oncology and Ophthalmology. Certified by the British Standards Institution (BSI), Intrinsic Imaging is the only company in the world to hold five ISO certifications specifically for providing imaging core lab services on clinical trials.
